
External Sources & UI
FRONTEND
User Chat UI
User interface for interacting with Memora agent.
React
Tailwind CSS
CLIENT
Gmail
External email source providing organizational data.
Gmail API
CLIENT
Google Chat
External chat source providing organizational data.
Google Chat API
Send Response
Orchestration Layer
SERVICE
Memory Orchestrator
Main agentic orchestrator managing memory workflows and response
Python
LangGraph
FastAPI
Detect Memory
Memory Processing Pipeline
SERVICE
Memory Detector
LLM-based service to detect if content is worth remembering.
Python
LangChain
Mistral
Process Important Info
SERVICE
Importance Scorer
Assigns importance scores to memories for retention priority.
Python
LangChain
Classify Memory
SERVICE
Memory Classifier
Classifies memories into Profile, Semantic, Episodic, or Goal
Python
LangChain
Generate Embeddings
SERVICE
Embedding Service
Generates vector embeddings for semantic and episodic memories.
Python
Mistral Embeddings
Store Profile/Goal
Store Vectors
Enterprise Memory Storage
DATABASE
Profile & Goal Store
Stores core data
Profile & Goal Store

Retrieve Context
Store Relationship
Final LLM Response
Traverse Graph
Memory Update Loop
Fetch Profile/Goal
Fetch Vector Memory
Fetch Graph Data
Retrieval & Response Generation
SERVICE
Retrieval Engine
Retrieves context from multiple memory stores using hybrid search.
Python
Llamaindex
Build Context
SERVICE
Context Builder
Assembles retrieved memories into a structured prompt context.
Python
Generate Response
SERVICE
Response Generator
Generates grounded responses using retrieved organizational
